DIARY NOTES

DD/S *WZ*

7 May 1963

1. At the Executive Committee Meeting this morning:

a. John Bross reported that the Bureau of the Budget had been directed to undertake a new examination of all foreign activities to see what could be done to stem the gold flow.

b. In connection with another discussion, General Carter said that he was most unhappy about our apparent inability to prosecute people who have used funds illegally.

3. I asked [REDACTED] to pursue the replacement of the air-conditioning system in the Director's office and to make plans for putting acoustical plaster on the ceiling the next time the Director is out of town for a few days. 25X1A9a

4. Matt Baird was in to try to persuade me not to insist on further staff work in connection with his mid-career paper. I declined and asked him to go back and do the necessary staff work. 25X1A

6. With regard to [REDACTED] Emmett Echols advised me that he has conferred with Larry Houston and there is no way in which we can put [REDACTED] on a WAE basis. Since he is a regular officer and his retired pay exceeds \$10,000, he must choose between his retired pay and his civilian pay. 25X1A9a
